

KOSÉ Corporation

April 2020 Revision April 3, 2024

In 1946, KOSÉ founder Kozaburo Kobayashi started his business with a limitless passion for cosmetics that offer people hopes and dreams.

Our statement of purpose is to create a culture and values embodying a distinctive beauty through a sophisticated fusion of sensuousness and intelligence. We have grown steadily as a company that leads in providing unique value through the creation of beauty for people.

The sharing and caring of many people and the planet Earth, whose benefits support us all, have empowered our growth.

The social environment in which we find ourselves is changing dramatically. We are faced with factors including globalization, changing demographics, diversifying aspirations and needs, global warming due to climate change, and the depletion of natural resources.

Committed to creating new value with a better future in mind, we must make greater use of our sensuousness and intelligence to achieve a sustainable society.

The KOSÉ Group has established the KOSÉ Sustainability Plan to make the future better for people and the environment. We are committed to evolving into a company with a global presence that fulfills its responsibilities as a member of the international community.

Guiding Principle for Sustainability

Our corporate message from 1991 until recently has been Wisdom and Beauty for People and the Earth. However, we have redefined this message as Creating Beauty in a Sustainable World. This message is also the guiding principle for our activities for a sustainable society.

Creating Beauty in a Sustainable World

KOSÉ is a company that delivers state-of-the-art value by creating beauty through sensuousness and intelligence, love and craftsmanship.

We aspire to build a future where people possess confidence and positivity, embracing both themselves and others for who they are.

A future where all can live peacefully in a wholesome world.

To bring about that future, we pledge to do our utmost through the intelligent creation of beauty.

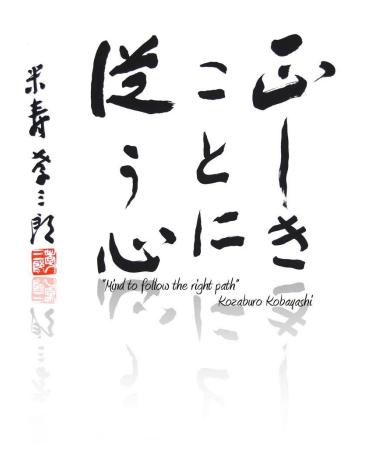

The power of beauty can change the world.

More than anything, we believe in the power of beauty.a

Fundamental Policy

The motto of Kozaburo Kobayashi, the founder of KOSÉ, is Mind to Follow the Right Path. The foundation of our corporate spirit since day one, these words are part of the Behavioral Charter that all KOSÉ Group employees must follow. They also serve as the fundamental policy of the KOSÉ Sustainability Plan.

Mind to Follow the Right Path

To follow the right path requires

Courage
Patience
Wisdom and Effort
Flexibility and Honesty
Each moment, each day,
deepen your commitment
to staying on this path

Kozaburo Kobayashi, Founder of KOSÉ

Synergy with VISION 2026

Together with the formulation of the KOSÉ Sustainability Plan, we made developing a sustainability strategy spanning the entire value chain one of the three foundations of our medium-to-long-term vision, VISION 2026. Incorporating and implementing a sustainability perspective in all activities to achieve VISION 2026 drives growth for the KOSÉ Group and

helps to achieve a sustainable society.

VISION 2026 Evolving into a company with a global presence

A company dedicated to being a source of beauty for everyone

A company that uses foresight for the constant creation of innovative value

A company that constantly attracts more customers and is a place where people are proud to work

A company with diverse brands and human resources that can succeed worldwide VISION 2026

Three Growth
Strategies

one World, One Market

Two Value
Creation Vectors

Three Foundations

KOSÉ Sustainability Plan

2030

Contribute to a sustainable society and the global environment

■ Three Growth Strategies

- Accelerate globalization of brands
- Proactively develop unique products
- · Explore new growth domains

■ Two Value Creation Vectors

- Use digital technology for more and better personal customer experiences
- •Focus on unique forms of value by utilizing external resources and technologies

■ Three Foundations

- Build a sound foundation for the Company's growth
- Promote diversity and inclusion
- Develop a sustainability strategy spanning the entire value chain

Process for formulating and executing the KOSÉ Sustainability Plan

We used the following procedures and methods to identify the material issues that the KOSÉ Group should address, and to set, approve and promote activity themes.

1. Identification of social and environmental issues

Identify issues the KOSÉ Group should address

We identified the issues the KOSE Group should address with reference to the following:

- ISO 26000
- GRI Standards
- UN Global Compact
- UN Sustainable Development Goals (SDGs) (17 goals and 169 targets)
- International and social conditions (external evaluation institutions, consumer feedback data from the Customer Service Center, dialogue with NPOs and NGOs)
- Opinions within the Group's Sustainability Promotion Committee (members from a total of 33 departments and operating companies)
- Material issues in our industry and other industries

2. Definition of activity themes

Categorize activities

We evaluated issues identified in Step 1 above on the axes of importance to society (customers, business partners, employees, shareholders, local communities, the international community, NPOs, NGOs, etc.) and importance and relevance to the KOSÉ Group. Next, we applied our guiding principle for sustainability—Creating Beauty in a Sustainable World—to group issues, dividing them into two core categories, one related to people and society and the other related to the Earth. We also defined six main activity themes aligned with our fundamental policy—Mind to Follow the Right Path.

3. Approval

Senior management commitment

Mission formulation processes, activity themes and milestones toward achieving targets were reported to and approved by the Board of Directors and the Sustainability Committee.

4. System for confirming progress and reviewing activities

System for confirming progress and reviewing activities

The Sustainability Promotion Committee, which is a Group-wide organization that reports to the Sustainability Committee, regularly confirms progress toward targets and reviews activities.

KOSÉ

Social and environmental changes and issues relevant to the KOSÉ Group and identification of material issues

We identified 21 material issues by first identifying social and environmental changes and issues relevant to the KOSÉ Group as well as related opportunities and risks.

Reduced sales due to insufficient • Changes in the international economic balance Cultivation of new markets. capacity for meeting global demand (new countries) Declining population and birthrate in Japan Economic downturns due to pandemics, People Access to human resources globally • Interaction of populations through globalization Changes in consumer attitudes Changing balance between supply and regarding gender • Interaction of people with diverse backgrounds demand in Japan and features Greater possibilities for entering Market entrants from other industries Blurring of industry boundaries new businesses and creating value by collaborating with Increased compliance risk Response to IoT and digitalization Society different industries and others Expectations for Japanese quality Growing demand for high-Material quality products Stronger oversight of corporate governance and others systems Current **Opportunities Risks Status Issues** Dramatic change in demand for Climate change (intensifying and more **Environment** Innovation using R&D seasonal products frequent abnormal weather) Impact on imports and exports Add value with new container. Marine plastic problem due to tighter international regulation materials Criticism of the use of plastic for Depletion of natural resources containers and packaging Add value to production systems Impact on raw material procurement Emerging water resource risks and others and others and others

Material Issues and Themes

We checked our 21 material issues against our guiding principle for sustainability and the fundamental policy to define six activity themes and six primary categories divided into the three areas of People, which relates to society and individuals; the Earth, which relates to the environment; and Mind to Follow the Right Path, which relates to our corporate fundamentals.

Activity Themes for People

- Products and services reflecting the concept of adaptability
- Adapt to a digitalizing society
- Deliver value and contribute to peripheral healthcare markets
- Enhance QOL Promote sports
- Conduct responsible procurement with consideration of issues such as the work environment
- Eliminate the gender gap
- Promote diversity and inclusion

- A source of adaptable products and services
- Support for a beautiful, healthy and a happy life
- Help create a world with true gender equality

Activity Themes for the Earth

- Conserve oceans, forests and ecosystems through marketing, etc.
- Formulate products to reduce environmental loading
- Environmental conservation in regions we serve
- Climate change countermeasures such as CO2 reduction
- Make efficient use of water and forest resources
- Reduce waste
- Develop sustainable packaging

- Use the theme of beauty to help solve environmental issues
- Environmental programs where KOSÉ operates
- Lower the overall environmental impact of business operations

Primary Categories for "Mind to Follow the Right Path"

Sound corporate governance

Respect for human rights Human resource operations with development

Business transparency and fairness

Only the safest, most reliable, high-quality products

Customer's perspective

Sustainability Promotion Systems

The KOSÉ Group has identified some sustainability-related issues in its management issues and has established a promotion system to resolve them.

The Sustainability Committee is chaired by the President & CEO. Supervised by the Board of Directors, this committee proposes sustainability strategies to and receives approval from the Management Committee, and then reports the results to the Board of Directors.

The Sustainability Promotion Committee establishes subcommittees and projects for separate themes based on the KOSÉ Group's sustainability strategies to promote cross-departmental activities that are more effective.

Medium-to-Long-term Targets of Activity Themes and Linkage with SDGs (For People)

The KOSÉ Group signed the United Nations Global Compact in July 2017. We support the concept of the Sustainable Development Goals (SDGs) as set forth by the United Nations, and the KOSÉ Group will contribute to their achievement.

| | Activity Theme | Commitment | Indicators | Target | Achieve by | Examples of Specific Measures | Relevant SDGs |

Activity Themes and Their Impact on the Value Chain

The six activity themes defined in the KOSÉ Sustainability Plan involve the entire product life cycle and value chain from planning, research, development and raw material procurement to disposal or reuse, but we expect them to have the greatest impact on our value chain in the areas shown below. The six primary categories involve the entire value chain.

KOSÉ Group Stakeholders

In all its activities, the KOSÉ Group places importance on its relationship with all stakeholders, including the next generation. We also think of the global environment, which is the basis of our corporate activities, as an important stakeholder.

Stakeholder Engagement

The KOSÉ Group is deepening engagement with all stakeholders. Where appropriate, we have reflected the opinions and evaluations received from our stakeholders in the sustainability promotion and corporate activities of the KOSÉ Sustainability Plan.

| Stakeholder | | Communication Contact Point | Frequency | Summary | |
|----------------------------------|-------------------------|--|-----------------|--|--|
| Customers | | Customer Service Center | As needed | Functions for response to customer queries by phone, email, mail and chat, and for sharing customer feedback internally | |
| | | Maison KOSÉ (online shop and physical store) | As needed | Communication of Company information and information on businesses, and response to customer feedback | |
| | | KOSÉ-managed social network accounts | As needed | Communication of Company information and information on businesses, and collation of comments | |
| | Stores | Conferences, events, seminars, etc. | As needed | Sharing of Company and business policies and gathering of opinions | |
| Business | | Purchasing policy meeting | Once yearly | | |
| partners | Suppliers | Questionnaire | Once yearly | Information sharing and collaboration for responsible procurement | |
| | | Direct individual dialogue, etc. | As needed | | |
| | | Labor-management consultation meetings | Multiple yearly | Discussion, negotiation, opinion exchange, mutual understanding | |
| Employees (Including recruiters) | | Employee consulting channel and internal reporting channel | As needed | System for confidential help and support | |
| | | Level-specific training for all employees, internship seminars, etc. | Multiple yearly | Information sharing and opinion exchange regarding Company and human resource development policies | |
| Global | Local communities | Various beauty seminars, sponsorship of local activities, etc. | As needed | Interaction with residents of local communities, sharing of Company and business information, and promotion of understanding | |
| community | Various stakeholders | | | Shared recognition of social issues and use of information acquired for internal PDCA cycle | |
| Shareholders and investors | | General Meeting of Shareholders | Once yearly | Presentation of business report, consolidated financial statements, financial statements and audit report, and deliberation and resolution | |
| | | Results presentations | Twice yearly | Presentation of results, management strategy, business activities, etc. | |
| | | Individual dialogue with investors, integrated report, disclosure on sustainability section of corporate website, etc. | As needed | Explanation, communication and disclosure of results, management strategies, business information and other matters | |
